

CPCS - A09 Forward Tipping Dumper (Novice Course)

The CPCS A09 course aims to provide the candidate with a thorough practical and theory training in operating a Forward Tipping Dumper to enable the candidate to pass the CPCS Theory and Practical Tests.

Through a combination of targeted training and experience, an individual with the forward tipping dumper will be able to:

- Describe the nature of the sector of industry and their role and responsibilities as a plant operator.
- Name and explain the purpose of principle components, the basic construction, controls and terminology.
- Confirm with Manufacturer's requirements as per the operator's handbook, other types of information source and the relevant regulations and legislation.
- Undertake all pre-use checks.
- Configure and ready for travel (site and highway).
- Travel over rough, undulating ground, steep inclines and level surfaces – loaded and unloaded.
- Manoeuvre in confined spaces whilst carrying loads.
- Ensure the suitability of the tipping and loading area.
- Explain actions required for hazards, underground and overhead services.
- Position to receive loads.
- Comply with loading procedures.
- Ensure Loading integrity and security.
- Transfer loads to different locations.
- Discharge loads into trenches and over edges.

- Maintain safe and tidy working areas.
- Carry out shut down and securing procedures.
- Explain loading and unloading procedures for machine transporting.

Instructions

CSCS Touch Screen Test:

All candidates are required to complete their CSCS H&S touch screen test prior to a CPCS course/testing. All candidates are required to take the relevant CSCS Health Safety and environment test and this must be in date as required by the CPCS Scheme Rules (page 8 section B2 14-26 of the operator scheme rules). Failure to comply with this will lead to candidate not being eligible to take their course/test and full payment will still be applicable.
