

CSCS Green Card – Including Site Safety Plus (e-learning) and CSCS Operative Touchscreen Test

Obtain your CSCS card by completing both parts of this training and test package.

Site Safety Plus

CITB accredited course providing delegates with a summary of health, safety, welfare and environmental issues.

Delegates will also be given the knowledge to identify individual responsibilities for looking after themselves and others, what the employer's duties are and what should be done if anyone's health and safety is being put at risk.

This remote learning and examination option for the market-leading HSA (Health & Safety Awareness) course has been created to allow delegates to gain and develop the required knowledge outside of the classroom.

CSCS Card and Test

The Operatives test ensures workers have a minimum level of health, safety and environmental awareness before going on site. To apply for a CSCS Labourers Green card, delegates will need to successfully complete both the Operatives HS&E test and the Site Safety Plus Health & Safety Awareness course, holding both valid certificates. CSCS cards provide evidence that individuals working on construction sites have the appropriate training and qualifications for the job they do on site, and contractors or clients in the UK require workers to hold a card before they are granted access to a site.

Instructions

Please provide your email address as this will be used to gain access to the Site Safety Plus e-learning.

This can be completed within the comfort of your own home or office.

You must pass the e-learning and obtain the relevant certificate.

Upon completion, our supplier will contact you to arrange the CSCS touchscreen test at a local approved test centre.
